Online Safety Tips

- Never use personal details in usernames

- Ensure privacy settings on social media are set to private

- Always log out of websites

- Never publish any personal information anywhere

- Be mindful of what story an image tells - don't give away personal details or location information

- Never 'check-in' at home or on holiday (checking-in on holiday can invalidate house insurance policies)

- Be mindful that content shared can be accessed by anyone, anywhere

- Be mindful that what you post can last forever

How to stay safe online

★ Set your profile to private

★ Never use your full name or date of birth in usernames

★ Never share passwords or personal information with anyone

★ Never check-in at home or on holiday

★ Don't post something you wouldn't say to another person's face

★ Only accept friend requests from people you know

★ Never meet in person with anyone you first 'met' online

★ Tell your parents if you are upset, scared or worried about anything
